

## **INVENTION DISCLOSURE FORM**

**1. TITLE:** Smart AI Resume Mentor – AI-Powered Resume Builder & Career Booster

**2. INTERNAL INVENTOR(S)/ STUDENT(S):**

A.	Full name	Sonia Devi
	Mobile Number	6283160387
	Email (personal)	soniachoudhary2887@gmail.com
	UID/Registration number	12314702
	Address of Internal Inventors	Lovely Professional University, Punjab-144411, India
	Signature (Mandatory)	
B.	Full name	Samridhi Raturi
	Mobile Number	6398856858
	Email (personal)	Samridhiraturi724@gmail.com
	UID/Registration number	12319946
	Address of Internal Inventors	Lovely Professional University, Punjab-144411, India
	Signature (Mandatory)	
C.	Full name	Navya Angajala

Mobile Number	9110578499
Email (personal)	navyaangajala123@gmail.com
UID/Registration number	12319769
Address of Internal Inventors	Lovely Professional University, Punjab-144411, India
Signature (Mandatory)	
D. Full name	Dr. Ravin Kumar
Mobile Number	9650105188
Email (personal)	ravinpal2009@gmail.com
UID/Registration number	31202
Address of Internal Inventors	Lovely Professional University, Punjab-144411, India
Signature (Mandatory)	

**3. DESCRIPTION OF THE INVENTION:** Smart AI Resume Mentor is an AI-powered platform designed to help job seekers create optimized, ATS-compatible resumes. The system provides real-time resume analysis, job matching, and skill enhancement recommendations based on industry trends. It leverages natural language processing (NLP) to suggest improvements, ensuring better alignment with job descriptions. The AI-driven mock interview feature evaluates candidates' responses and provides feedback to improve communication skills. The system continuously adapts and learns from user data and employer feedback, refining resume recommendations. The technology stack includes React.js, Python (Django/Flask), PostgreSQL, and AI-based NLP models. The invention enhances hiring success rates by integrating resume optimization, job matching, and interview preparation into a single seamless platform.

**PROBLEM ADDRESSED BY THE INVENTION:** Job seekers struggle with resume optimization, ATS compatibility, and skill alignment, leading to missed opportunities. Traditional tools lack real-time feedback, skill recommendations, and interview preparation. **Smart AI Resume Mentor** solves this by analyzing resumes, suggesting improvements, recommending skills, and providing AI-driven mock interviews, ensuring better job success.

- a) Job seekers struggle with **resume optimization, ATS compatibility, and skill alignment**, leading to missed opportunities.
- b) Traditional resume tools **lack real-time feedback, skill recommendations, and interview preparation**.
- c) Many job seekers find it **difficult to tailor resumes** for different job descriptions, reducing their chances in hiring systems.
- d) **Absence of automated job-matching and custom resume formatting** further lowers job application effectiveness.
- e) **Manual resume writing is time-consuming and inconsistent**, often missing critical keywords required for ATS.
- f) Fresh graduates and career changers **struggle to identify necessary skills and certifications** to stay competitive.
- g) Lack of **AI-driven resume scoring and employer feedback analysis** leads to outdated resume strategies.
- h) Without **continuous learning and updates**, resumes fail to align with evolving job market trends.
- i) Smart AI Resume Mentor addresses these issues by **providing AI-powered resume analysis, job-matching, skill recommendations, and mock interviews** to increase hiring success rates and career growth.

**A. OBJECTIVE OF THE INVENTION:**

1. **Enhancing Resume Optimization:** Improve resume quality by ensuring ATS compatibility, keyword relevance, and proper structuring.
2. **Providing Real-Time Feedback:** Offer instant suggestions for resume improvement, increasing job application success rates.

3. **Personalized Skill Recommendations:** Identify skill gaps and suggest relevant courses and certifications based on industry demands.
4. **AI-Driven Mock Interviews:** Evaluate responses and provide feedback to improve communication skills and interview preparedness.
5. **Job-Specific Resume Customization:** Adapt resumes to match different job descriptions, improving candidate-employer compatibility.
6. **Smart Resume Scoring System:** Rank resumes based on effectiveness, job relevance, and completeness.
7. **Continuous Learning & Adaptation:** Utilize machine learning to refine resume recommendations and ensure career growth.
8. **Seamless Career Assistance:** Integrate resume building, skill development, and job application guidance into one AI-driven platform.

**C. STATE OF THE ART/ RESEARCH GAP/NOVELTY:** Describe your invention fulfil the research gap?

Sr. No.	Patent I'd	Abstract	Research Gap	Novelty
1.	CN210377838U	AI-powered resume optimization with skill recommendations and mock interview preparation.	1. Existing resume-building tools do not incorporate real-time <b>AI-driven feedback</b> for continuous improvement. They lack <b>personalized skill suggestions</b> and <b>mock interview preparation</b> to enhance job seeker confidence.	1. The proposed system integrates <b>resume analysis, job-specific skill learning, and AI-driven interview coaching</b> , providing a holistic approach to career enhancement
2.	CN206003311U	Intelligent resume analysis based on job descriptions	1. Traditional tools do not dynamically refine resumes	1. Uses <b>AI-driven resume refinement</b> by comparing

		for better job matching.	based on <b>specific job descriptions</b> , resulting in lower compatibility with employer expectations.	resumes against job postings and suggesting tailored improvements to align with hiring trends.
3.	US10296794B2	Automated resume builder with adaptive career growth insights.	<b>1.</b> Existing platforms lack a <b>unified solution</b> that combines <b>resume building, skill tracking, and career advancement assistance</b> in one system. No existing tool provides AI-driven support for professionals <b>transitioning into new industries</b> or changing careers	<b>1.</b> Implements <b>AI-generated, role-specific resume templates</b> , ensuring industry alignment and <b>increasing recruiter engagement</b> . Collects <b>real-time employer insights</b> , continuously refining resume recommendations. Provides
4.	US10297355CA	<b>1.</b> AI-powered resume evaluation with automated industry-specific formatting. <b>2.</b> AI-driven job-matching system that enhances resumes based on employer preferences. <b>3.</b> Smart resume analysis with employer feedback integration. <b>4.</b>	<b>1.</b> Current resume builders lack <b>customized formatting for different industries</b> , leading to generic and ineffective <b>2.</b> No existing system <b>tailors resumes dynamically</b> based on real-time employer hiring trends. <b>3.</b> Job seekers lack direct <b>employer-</b>	<b>1.</b> Implements AI-generated, role-specific resume templates, ensuring industry alignment and increasing recruiter engagement. <b>2.</b> Leverages AI to <b>analyze hiring trends and tailor resumes accordingly</b> , improving job seeker adaptability.

		<p>AI-powered resume voice assistant for hands-free resume building. <b>5.</b> AI-driven personality assessment to match resumes with company culture. <b>6.</b> AI-based career transition assistant. AI-driven job application performance tracking. Multilingual resume support system. Employer preference insights powered by AI. AI-powered cover letter generation. AI-driven resume validation with recruiter insights. Industry-specific adaptive resume templates. AI-based behavioral and soft skills analysis. Automated resume adaptation for multiple job applications. AI-powered real-time job market trend analysis.</p>	<p><b>driven insights</b> to improve their resumes effectively. <b>4.</b> No existing AI resume tools allow <b>voice-based resume creation</b>, limiting accessibility for differently-abled individuals. <b>5.</b> Resumes lack insights into <b>soft skills, behavioral traits, and cultural fit</b>, impacting hiring decisions. <b>6.</b> Most resume-building tools do not incorporate <b>accessibility features</b>, excluding differently-abled job seekers. Existing tools do not allow users to <b>measure job application effectiveness</b> and improve resumes based on hiring outcomes. Current resume builders <b>do not support multiple languages</b>, restricting non-native speakers from applying for international roles.</p>	<p><b>3.</b> The proposed system learns from <b>employer feedback</b>, continuously refining future resume recommendations for higher job success rates. <b>5.</b> Enables users to <b>build resumes using voice commands</b> and <b>AI-generated suggestions</b>, making the process inclusive. <b>6.</b> Incorporates <b>personality and behavioral analysis</b> to help job seekers craft resumes that align with <b>company culture and job requirements</b>. <b>7.</b> Uses <b>AI-assisted resume adaptation</b> to help users modify resumes. Provides <b>AI-assisted multilingual resume creation</b>, expanding job market opportunities globally. Uses AI to analyze <b>recruiter behaviors</b>, helping users optimize resumes.</p>
--	--	---	--	---

			Resume tools do not integrate with <b>professional networking platforms</b> or referral-based hiring processes. Most platforms do not provide <b>AI-assisted cover letters</b> <b>customized</b> to job descriptions. No platform integrates <b>recruiter and hiring manager feedback</b> directly into resume optimization. Traditional resume-building platforms <b>do not account for job market fluctuations</b> and evolving hiring demands.	to match industry demands. Generates <b>personalized, job-specific cover letters</b> , improving applicant success rates. <b>AI-powered, adaptive resume formats tailored</b> to different job roles and industry standards. <b>AI-driven, automatic resume customization</b> for various industries and job roles. Uses AI to <b>analyze hiring trends and predict industry shifts</b> , ensuring job seekers remain competitive.

**D. DETAILED DESCRIPTION:** Smart AI Resume Mentor is a comprehensive, AI-powered system designed to revolutionize the way job seekers create and optimize their resumes. The platform integrates **Natural Language Processing (NLP), Machine Learning (ML), and real-time AI analysis** to provide personalized recommendations, improve resume quality, and enhance job application success rates.

**1. Core Functionalities:**

**A. Resume Creation and Analysis:**

- a) The system enables users to input their career details, including work experience, education, skills, and certifications.

- b) AI-driven formatting ensures that resumes meet **industry standards and ATS compliance**, improving the likelihood of passing automated recruitment filters.
- c) Grammar and structure checks help refine content, making it more **impactful and readable**.

#### **B. Job Matching and Customization:**

- a) AI algorithms compare user resumes with job descriptions, identifying **gaps in skills and keyword relevance**.
- b) The system tailors resumes to specific job roles, ensuring **optimized content** for each application.
- A. Users receive real-time suggestions for modifications based on **employer expectations and hiring trends**.

#### **C. Smart Resume Scoring System:**

- a) AI assigns a **resume score** based on content quality, ATS optimization, job relevance, and overall effectiveness.
- b) The system provides step-by-step recommendations to improve the **score and job application success rate**.

#### **D. AI-Powered Skill Recommendations:**

- a) The platform analyzes **job market trends** and recommends **certifications, courses, and skills** to enhance user employability.
- b) It continuously updates recommendations based on **user progress and evolving industry demands**.

#### **E. AI-Driven Mock Interviews and Feedback:**

- a) Users can participate in AI-simulated interviews tailored to their target job roles.
- b) The system evaluates **communication, confidence, and answer accuracy**, providing real-time feedback for improvement.
- c) AI-powered coaching helps users refine responses, **boosting interview confidence and success rates**.

### **2. Technological Implementation:**

- a) **Frontend:** React.js / Flutter for a seamless user experience.

- b) **Backend:** Python (Django/Flask) for AI processing and API integration.
- c) **AI & NLP Models:** Advanced algorithms for **resume parsing, keyword extraction, and interview response analysis.**
- d) **Database:** PostgreSQL / MongoDB for **secure data storage and retrieval.**
- e) **Cloud Integration:** Supports real-time updates and accessibility across devices.

### **3. Additional Features:**

#### **F. AI-Powered Cover Letter Generator:**

- a) Automatically generates **personalized cover letters** based on job descriptions.
- b) Ensures that cover letters align with **employer expectations** and highlight key strengths.

#### **G. Multilingual Resume Support:**

- a) Assists users in creating resumes in multiple languages, enabling **global job applications.**
- b) AI-driven translation ensures accuracy and **language-specific formatting.**

#### **H. Networking & Referral Integration:**

- a) Suggests job opportunities based on **user profile, experience, and skills.**
- b) Connects users with relevant professionals and recruiters through **AI-driven networking assistance.**

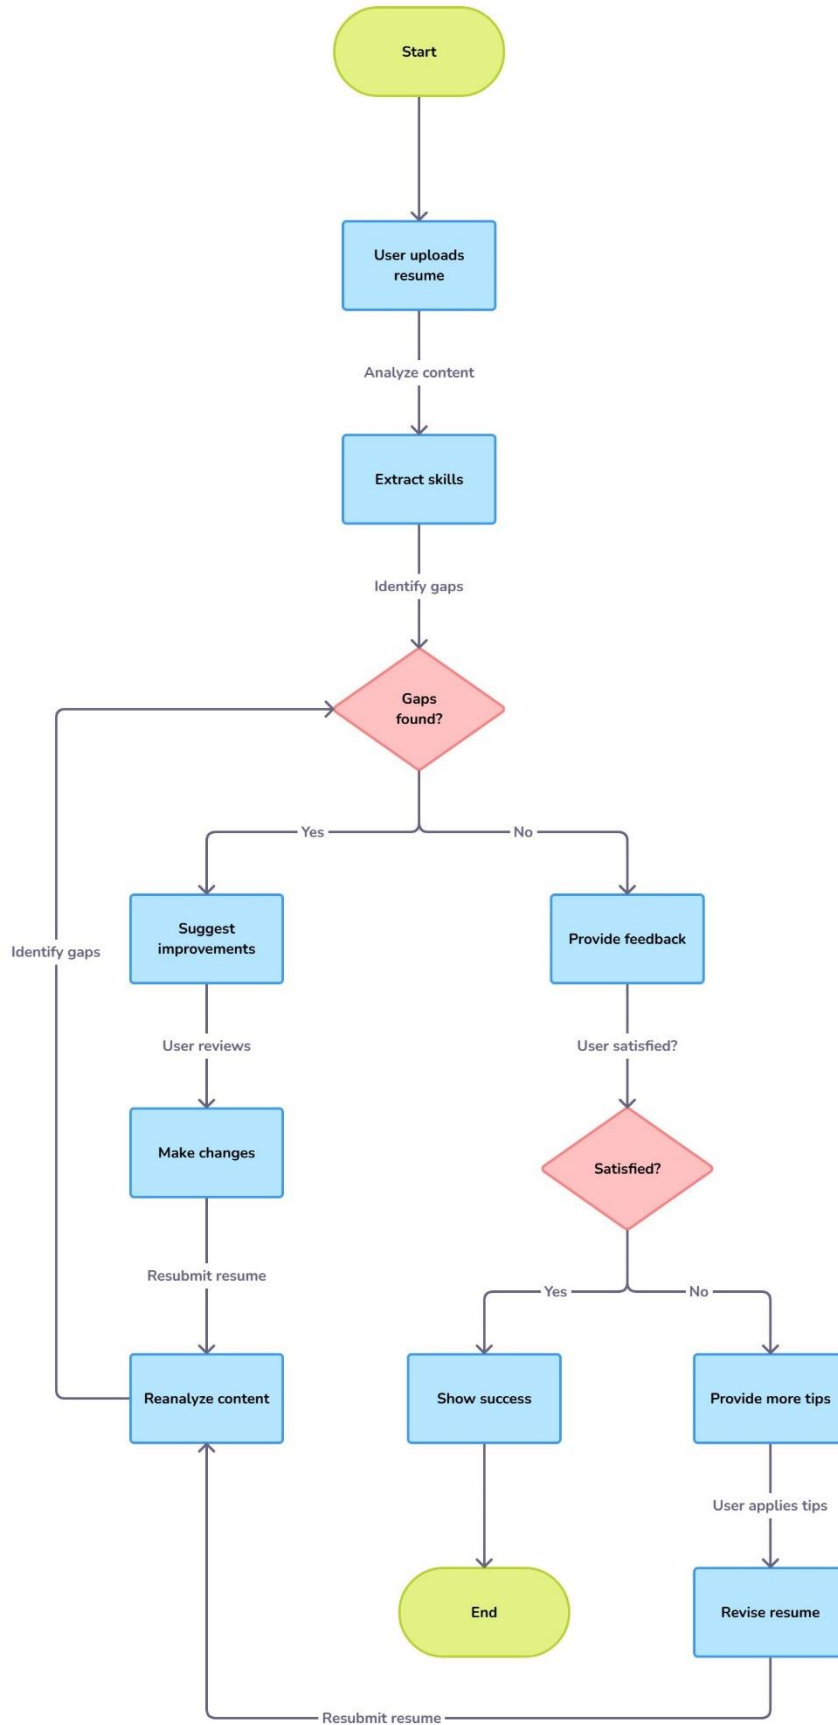

#### **I. Accessibility Features:**

- a) **Voice-activated resume creation** for users with disabilities.
- b) AI-powered **resume navigation and formatting assistance.**

### **4. AI-Driven Continuous Learning and Adaptation:**

- a) The system **tracks job application performance**, providing **feedback on resume effectiveness.**
- b) AI analyzes employer hiring patterns, refining recommendations **based on recruiter feedback.**
- c) The platform continuously updates templates and suggestions based on **industry shifts and emerging job market trends.**

## **E. WORKING PROTOTYPE/ FORMULATION/ DESIGN/COMPOSITION:**

1. **Flowchart: AI-Powered Resume Mentor**
2. **Start**
  - a. User accesses the AI Resume Mentor platform
3. **User Input & Resume Creation**
  - a. User enters personal details, education, skills, and work experience
  - b. AI-guided resume builder assists in structuring the content
4. **AI Resume Analysis**
  - a. AI scans the resume for structure, ATS (Applicant Tracking System) compatibility, and missing elements
  - b. Identifies weak sections and suggests improvements
5. **Job Matching & ATS Optimization**
  - a. AI compares the resume with job descriptions
  - b. Suggests keyword optimizations for better job matching
6. **Personalized Skill & Course Recommendations**
  - a. AI analyzes required skills for selected job roles
  - b. Suggests relevant courses, certifications, and skill-building exercises
7. **AI-Powered Mock Interview & Feedback**
  - a. AI conducts a mock interview based on job role
  - b. Provides feedback on communication, answers, and confidence level
8. **Resume Scoring & Final Optimization**
  - a. AI assigns a resume score based on job relevance
  - b. Offers final improvements before downloading
9. **Download & Apply for Jobs**
  - a. User downloads the optimized resume
  - b. AI suggests job portals and applications based on profile
10. **Feedback Loop & Continuous Improvement**

- a. AI gathers employer feedback on resume performance
- b. System refines future resume recommendations based on insights

**11. End**

- a. Process completes, and user receives an optimized resume for job application

**4. USE AND DISCLOSURE (IMPORTANT):** Please answer the following questions:

A. Have you described or shown your invention/ design to anyone or in any conference?	YES ( )	NO (v)
B. Have you made any attempts to commercialize your invention (for example, have you approached any companies about purchasing or manufacturing your invention)?	YES ( )	NO (v)
C. Has your invention been described in any printed publication, or any other form of media, such as the Internet?	YES ( )	NO (v)
D. Do you have any collaboration with any other institute or organization on the same? Provide name and other details.	YES ( )	NO (v)
E. Name of Regulatory body or any other approvals if required.	YES ( )	NO (v)

5. Provide links and dates for such actions if the information has been made public (Google, research papers, YouTube videos, etc.) before sharing with us.

**10. FILING OPTIONS:** The Smart AI Resume Mentor can be protected under multiple filing options, depending on the jurisdiction and scope of the invention. The following are the key filing options for securing intellectual property rights:

**1. Provisional Patent Filing:**

- a) A provisional patent application can be filed to establish an early priority date, allowing the applicant to refine the invention before filing a complete patent.
- b) This option provides a 12-month window to further develop the technology before filing a non-provisional patent.

**2. Non-Provisional Patent Filing:**

- a) A non-provisional patent application offers full patent protection once granted.

- b) It includes detailed technical descriptions, claims, and illustrations of the invention.
- c) Protects the AI algorithms, system architecture, and unique functionalities of the Smart AI Resume Mentor.

### **3. International Patent Filing (PCT Application):**

- a) A Patent Cooperation Treaty (PCT) application can be filed to secure protection in multiple countries.
- b) This option is useful for expanding the market reach and global patent protection of the invention.

### **4. Copyright Protection:**

- a) The software components, including the user interface, training data, and machine learning models, can be protected under copyright law.
- b) Ensures that the source code and AI-generated content are safeguarded against unauthorized use.

### **5. Trademark Registration:**

- a) The brand name “Smart AI Resume Mentor”, its logo, and associated visual elements can be registered as a trademark.
- b) This protects the brand identity and prevents unauthorized use by competitors.

### **6. Trade Secret Protection:**

- a) Proprietary AI algorithms, data processing techniques, and analytics models can be kept as trade secrets.
- b) This ensures that core intellectual property remains confidential, preventing competitors from replicating the technology.

## **11. KEYWORDS:**

AI Resume Optimization ,ATS Compatibility,AI-Powered Resume Builder,Smart Resume Analysis,Resume Customization,AI Job Matching,AI-Driven Mock Interviews,Resume Scoring System

## **12. CONCLUSION:**

Smart AI Resume Mentor is a revolutionary tool designed to enhance job seekers' success by optimizing resumes with AI-driven insights. By ensuring ATS compatibility, personalized job matching, and mock interview preparation, the system significantly improves hiring chances. With intelligent resume scoring and real-time feedback, users can tailor their resumes for

maximum impact. The platform continuously adapts to industry trends, helping candidates stay competitive in an evolving job market. Through AI-driven assistance, Smart AI Resume Mentor empowers job seekers to create high-quality resumes, improve their skills, and secure better job opportunities efficiently.
